UNIQUE IN THE WORLD

CERESER FOOD SAFE PROGRAM is a unique protocol in the world that guarantees unique levels of performance, safety and quality on all materials processed in Italy by **CERESER**.

FOOD SAFE CER-TIFIED RESINS

The **CERESER** chain has been completely renewed with the introduction of the **FOOD SAFE** certified epoxy system, specially developed by **TENAX** for **CERESER**, in compliance with the very strict European regulations.

NO BACT CER-TIFIED RESINS

The exclusive resins used by **CERESER**, for the enhancement of natural stone, are characterized by a specific antibacterial certification, a guarantee of complete sanitization.

MICROWAVE RESIN CURING LINE

The use of the new **CERESER** resins is enhanced by **Breton's** first in the world resining system to use microwave technology: a further guarantee of performance, safety and quality made in Italy.
